Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/6/2003 has been entered.
2. The amendment filed 9/22/2003 has been entered and fully considered but it does not place the application in condition for allowance. New rejection grounds are as follow.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-27 and 29-30 are rejected under 35 U.S.C. 102(b) as being anticipated by Kleshinski (5,755,778). Kleshinski disclose an expandable endovascular prosthesis as claimed, including a body having a first expandable portion (the portion at collar 14) interconnected two a second expandable portion (the portion at collar 16) and a third expandable portion (34) connected to the first and second portions (see figs. 4-7) ; a

first cover disposed over the surface of the first and second portions and a second cover disposed over the surface of the third portion (figure 5). In regard to claims 29 and 30, the steps as claimed are inherent since the Kleshinski's expandable endovascular prosthesis including all the limitation that when being used would inherently carry out the steps as claimed.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 28 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kleshinski (5,755,778). Although, Kleshinski does not disclose the body of the endovascular prosthesis being made from biodegradable material, it is known in the art to make endovascular prosthesis from biodegradable material so that the endovascular prosthesis absorbed in the body after carrying out its function. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify Kleshinski's endovascular prosthesis to a biodegradable endovascular prosthesis so that the step of removing the endovascular prosthesis after used would be eliminated.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Pinheiro (5,851,228) disclose a stent-graft including first, second, third portions and a cover disposed on the portions.
